What Is AutoCAD, DWG, or DGN? AutoCAD (AutoCAD Drawing Exchange Format) is a computer-aided design software application for creating 2D and 3D drawings, model representations, and technical drawings. It is developed by Autodesk, a subsidiary of Autodesk, Inc. The drawing formats Autodesk supports are AutoCAD, AutoCAD LT, AutoCAD MEP, AutoCAD Revit, AutoCAD Architecture and AutoCAD Plant. DWG is the same thing as AutoCAD. The files it generates are called DWGs. DGN is the same thing as AutoCAD, however, the names 'AutoCAD' and 'AutoCAD', are usually assumed to mean 'AutoCAD Architecture' or 'AutoCAD Architecture - Desktop' respectively.
